PREMIER BRIAND PLEADS FOR BIG ARMY IN FRANCE

In Passionate Plea French Premier Says France Dare Not Disarm.

NATION SURROUNDED BY RING OF FOES

Tells World Parley That Prussians Are Ready To Strike.

Washington, Nov. 21.—Rising to the full height of his Latin eloquence, Premier Briand of France delivered an enthralling speech to the world today in justification for France's maintenance of a great standing army.

He passionately and eloquently pleaded with the powers that France dare not disarm, asserting that on her sits the old Prussian militarism that attacked her in 1914, ready to strike again at a moment's notice.

In a veritable court of words accompanied by gestures, pleading and supplicating, he asked the nations sitting about the great horseshoe to put themselves in France's stead—surrounded by a menacing ring of foes, the greatest of whom are Germany and Russia.

Would the world he asked, almost tearfully demand France disarm before a possible flood of anarchy and militarism pouring out of Russia and Germany?

Today's session of the conference focused attention of various military establishments. Troops held in arms by the various nations were estimated as follows:

British empire 500,000, France 500,000 Japan 350,000, Italy 300,000 United States 140,000, Poland, 400,000.

The American army already is at its minimum of strength. Practically all the other powers claim to be reducing their armies as rapidly as they can. The figures for the British include the territorial and local troops under arms.

Women predominated in the crowded galleries supplanting the senators cabinet officers and other dignitaries who were so prominent at the previous session. The French coats and high hats gave way to brilliant gowns and the latest in Parisian headgear.

There was not the air of tension over today's meeting that had characterized the other. No sudden dramatic announcement or startling coupes such as attended the opening session were in prospect.

\$7,000 DAMAGE CLAIMS AGAINST Y & O CO. ARE SETTLED OUT OF COURT

Damage claims aggregating \$7,000 against the Youngstown & Ohio River Railroad company were adjusted out of court Saturday and the pending cases in court were marked settled at the costs of the railroad company.

In March, 1920, when William McKee, Thomas Nick and Lina Sider all of Lisbon were employed in Salem, and driving to and from this city in an automobile owned by Nick, the machine was struck by a Y. & O. car at the Lincoln avenue crossing and the three men were badly injured, narrowly escaping death, while the machine was demolished.

Nick and Sider filed actions in court soon after, demanding \$3,000 each, and McKee sued for \$1,000, the amount being claimed in each case for personal injuries sustained in the accident. The amount agreed upon in settlement of the cases was not announced.

FIVE INSTITUTES ARE ARRANGED BY COUNTY FARMERS

Subjects Listed For Round Table Discussion; Good Speakers Coming.

BY M. K. ZIMMERMAN

Lisbon, Nov. 21.—Subjects to be featured by speakers at the various farmers' institutes to be held in Columbiana county this season have been forwarded to County Agent C. E. Rowland of the Columbiana County Farm Bureau. There will be five institutes in the county, but one will be an independent gathering. Four will be under the supervision of state speakers, both men and women.

On the programs for each institute will be printed a list of topics for round table discussion and included in this list will be found the following:

"Will it pay us as a community to standardize our grains?"

"How can we prevent the destruction of our improved roads by the speed maniac and the commercial truck?"

"Do co-operative buying associations increase or decrease the number of middlemen?"

"Production costs have not declined as fast as prices of farm products. What can we do to meet the situation?"

"Do we get 100 cents for our tax dollar?"

"Are our homes as well equipped as our farms?"

"What is the moral effect of ridiculing children before others?"

"Do we want a traveling library? How can we get it?"

"Is a hot lunch worth while? If so, how can we get it started?"

"Are flies a menace? If so, how can they be controlled?"

"What constitutes adequate safeguards for a farm well?"

Dr. Mary Anderson to Speak

There has come from state officials of the Ohio State Agricultural College Extension service this suggestion for local institute officers:

"Every institute should give Old Glory a prominent place in the decoration scheme," and so far as Columbiana county is concerned, such suggestion will be carried out to the letter.

At the Clarkson Institute, which will be the first held in the county this season, Dec. 5 and 6, Dr. Mary A. Anderson, of Pennsylvania and H. P. Miller of Sunbury will speak. Dr. Anderson has spent her life as a student of the life to which flesh is heir. She has held many responsible positions in schools and on advisory boards of public institutions. Her ready wit and rare good sense have enabled her to brighten many a corner and to inspire many an audience. She has 10 interesting topics.

Mr. Miller is an influential agriculturist. He has held many important state and federal positions. He actively manages his own farm which is a model for efficiency. Mr. Miller has 11 topics.

Edward M. Thomas of Rogers is president of the Clarkson Township Farm Bureau and Denver Williams is secretary. Miss Lena Anderson is the correspondent for the township organization.

Damascus Institute

Mr. Miller will also speak at the Damascus Institute, Dec. 7 and 8, and will be assisted by Dr. Anderson and Prof. Oscar Erf of the State college of Agriculture.

Mr. Erf was born and reared on a dairy farm. He is a graduate of the Agricultural College of Ohio State university, being a member of the class of 1898. He was a delegate to the International Dairy convention at Savannah, Georgia, and then spent six months studying dairy conditions in Europe. He has been head of the Department of Dairying of Ohio State university since 1908 and is considered one of the foremost men in dairy work in the United States. His life is devoted to the betterment of the dairy industry.

Earl Santee is president of the Damascus branch of the Farm Bureau while Mrs. Alton Crum, R. F. D. No. 5 Salem, is secretary and correspondent.

At the East Rochester Institute Jan. 18 and 19, Miss Pearl Dorsey of Mountsville, W. Va., will speak. She is one of those women who does her own thinking and from her own conclusions and always has the courage of her convictions. She has spent many years in school training in different countries.

matched in weight. The Alliance team has its weight more evenly distributed at the guard positions but Salem will have much of the advantage in weight.

Alliance defeated the light Wooster team Saturday, 26 to 0. The score is not representative, however, as the Wooster team offered no opposition until the last period. Alliance was defeated by Lisbon 7-0. Lisbon was defeated by Warren Saturday, 42-0. Salem was beaten by Warren, 7-6, but not outplayed.

On the basis of comparative scores Salem should defeat Alliance, but comparative scores are not always sound grounds for forecasting results.

Jones, one of the best High school ends, will again be in a suit after being out for a week with an attack of blood poisoning in his arm. He can be expected to stop plays around his side of the line. Siskovic and Roessler may be expected to play their usual game.

Alliance has asked for 400 tickets for the game and expects to sell them all. A large crowd will be on hand for the biggest game of the season.

The officials will be: Scullion, referee; Howells; umpire and Cronin, head linesman.

Divorced Man Charged With Killing Three

Triple Crime Committed At Former Wife's Home In Wilmington.

Wilmington, O., Nov. 21.—Oliver Vandevord, accused of the murder of his divorced wife, Mrs. Bertha Whitlow Vandevord, 30; her mother, Mrs. Jeff Whitlow, 57, and Howard Bosier, 24, a caller at Whitlow home, will have his preliminary hearing here today.

The triple crime was committed late Saturday night. Vandevord denies his guilt, but officials say that Mrs. Whitlow, the only one of the victims not dying instantly, accused her former son-in-law in an ante mortem statement.

According to police, Vandevord, who had recently been divorced by his wife, had quarreled with a farmer named Rodney Wallace on the streets of Wilmington early Saturday evening. While he was being sought on this charge, a call came from the Whitlow home where Mrs. Vandevord had made her home since her divorce.

Here the bodies of Mrs. Vandevord, and Bosier lying in the living room were found, with Vandevord nearby holding his infant child in his arms. Mrs. Whitlow at the point of death was found lying in the kitchen.

A 10-year-old son of Vandevord and his divorced wife stated to Sheriff Kirk that his father came to the house in an automobile, and that, when Mrs. Vandevord opened the door in answer to his ring, he shot her instantly through the heart. Another bullet shot through the heart, and then two shots were fired at the older woman, both taking effect, but neither resulting in instant death.

Vandevord denies his guilt. He told Sheriff Kirk that he heard shots while passing the house, entered and found the dead bodies of his former wife and Bosier, and Mrs. Whitlow at the point of death.

A revolver with four empty chambers was found in the kitchen, while a second gun fully loaded, was found in Vandevord's car.

Vandevord is a fur dealer here. He has been twice married and divorced from his murdered wife, the second divorce having been granted six weeks ago.

WORK OF LAYING LINES TO ZELLEY FIELD IS STARTED

Eight-inch Gravity Lines Will Connect Wells And Station.

SEEK TO INCREASE CITY WATER SUPPLY

Large Pipe Line Expected To Double Supply From This Field.

Following recommendation of Service Director Bristol to Salem city council that investigations in the Zelley water area be increased to insure Salem a sufficient amount of water for next summer by the construction of an eight-inch gravity line and a air line from the pumping station to the Zelley field, work of laying the two lines was started Monday morning with nine men at work.

Approximately 2,000 feet of eight-inch case iron pipe is available and will be connected with the line which was placed by former Service Director Elton. The six-inch pipe from the point at Eighth st. to the pumping station will be torn up and relaid from the Zelley field to the end of the eight-inch line on East Eighth st. This method will take care of twice the amount of water now being conducted, according to the service director, who intends to start investigations in that area to make up for the loss of water being felt in the Whinnery field.

A Busy President

EVERY day it is becoming more apparent to the people of this country that in Warren G. Harding they have a president who is devoting more time and serious thought to the pressing problems confronting the nation than did any president in recent years. And with recent developments of world-wide significance they are beginning to realize more and more that the very nature of the momentous problems confronting him precludes the advisability of making public the plans and preliminary work for their solution until they have been completely perfected.

Thus the people are coming to appreciate the vast amount of constructive work and efforts that President Harding has been formulating and carrying out while the public little realized that he was toiling so laboriously. One instance of the fact that President Harding has dedicated his life to hard work and that he is working while others believe he is at leisure has just come to light.

Although Mr. Harding had long entertained the idea of calling a great international conference on armaments, he did not want to issue the call while France and England and Italy were discussing German indemnities, neither did he desire to issue it until the subject of peace between the United States and Germany had been fairly well cleared up. He waited, therefore, until France and England and Italy were once more in fair accord and until the foreign relations of the United States were in a good way toward being settled.

It was about that time that the president made his trip down the Potomac on the Mayflower, with several close friends on board. He went into his stateroom for some time and came out with sheets of paper on which, with frequent interlunations, had been written the call for the conference. To say that the friends who read his plans at this time were amazed would hardly be true. They knew in advance that Mr. Harding had the plan in mind and it was no great surprise to them. But they were sure of one thing. That was that President Harding was the sole initiator, and the sole sponsor, for the plan.

And as this story of the plans for the conference come to public attention the people are sure of another thing. That is that trips on the Mayflower, give the president, opportunity to study, for that it requires much preliminary work, in private where he will not be disturbed to formulate the great plans which President Harding is presenting to the United States and to the world.

The Actual Saving
A CORRESPONDENT of The New York Times estimates that the net saving to the taxpayers from scrapping the 15 capital ships now under construction by the United States, as proposed by Secretary Hughes, would be \$2,000,000,000. He estimates the annual saving during the 10-year naval holiday proposed at \$200,000,000 a year, perhaps more. In other words, something like half of what has come to be regarded as a normal annual naval appropriation would be saved.

These figures quite probably are too conservative when we take into consideration the amounts to be saved by the employment of a smaller naval personnel and the support of a smaller institution at Annapolis. At best, they look rather insignificant by comparison with a total annual budget of \$4,000,000,000. The average man would still have to pay some federal taxes. But no other department of the public service offers so promising a chance to lop off \$200,000,000 or more a year and the establishment of the principle of armament limitation is the great thing at stake. There is ground for the hope that a 10-year naval holiday would mean in the end a permanent one, and that would involve savings that cannot be estimated.

STALE BLOOD AFFECTS FEELINGS

Pepto-Mangan Makes Red Blood, Restores Healthy Glow.

It is gradually, very gradually, that the effects of weakened blood become apparent. Generally there is a feeling of lassitude, it is like a harmless lazy heaviness, and the complexion becomes muddy.

Gude's Pepto-Mangan is the very first thing a woman should think of taking for a stale-looking complexion. It drives out the poisons that ruin complexions.

But it is not only the effect that Gude's Pepto-Mangan has upon the complexion that makes it so valuable. New healthy blood causes an improvement in feelings, a return to the usual style of enthusiasm, a sensation of warmth and glow, an appetite that eagerly awaits eating time.

Gude's Pepto-Mangan makes new blood. It comes in liquid, on tablet form, both having the same medicinal value. The full name, "Gude's Pepto-Mangan," is on every package. Advertisement.

You Need More Than Good Fitting

"Good Fitting" is a mere phrase unless you buy shoes that are basically right in design and construction to afford the correct natural foot support. It's the ordinary shoe with its sagging arch that causes foot aches and pains. Arch Preserver Shoes, with the built-in arch bridge, give real comfort, because they eliminate all strain. They are in good style, too, always having a smart, clean-cut appearance. Why don't you find out about real foot happiness?

Woman Contests Election Count

Alliance, Nov. 21.—Miss Louise Strong, the Republican candidate for city treasurer of Alliance at the election held November 8, who was defeated by O. K. Ayres, Democrat, by a majority of 15 votes, as reported by the county board of elections, filed a petition in common pleas court at Canton asking for a recount of the ballots in which it is alleged the clerks made an error in the tally sheets of the precinct.

It is stated 18 straight Republican ballots and 7 straight Democrat ballots were not tallied on the tally sheets signed by the election board of the precinct. It is claimed it was simply an omission, which should have been added to the total vote of the precinct and for this reason a recount is asked for by Miss Strong. Should the contention by Miss Strong prove correct as reported in her petition, Miss Strong will be elected as city treasurer over Mr. Ayres.

How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare, and saves you about \$2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.
To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is safe, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell

You can turn gray, faded hair beautifully dark and lustrous almost next over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually. It is a well-known drugstore here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folk, aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

And the full heart's a psalter,
Rich in deep hymn of gratitude and love. 274h

GIRL HELPS POLICE CAPTURE GANG HEAD

"A Daughter of the Law," an absorbing story of the thwarting of a notorious crook gang by the little daughter of a police inspector, is the interesting feature tonight at the Royal theater. Carmel Myers reprises her previous successes in this new Universal photo-drama, which Jack Conway directed. It is an adaptation by Harvey Gates of Wadsworth Camp's Red Book story "The Black

Cap," and was filmed at Universal City. Charles Arling, famous on stage and screen, is seen at his best in "A Daughter of the Law," in the role of Police Inspector Hayes. Arling's human characterization proves the worth of his dramatic years with Francis Wilson, Henry W. Savage and the Shuberts. 274h

REV. TRAVERS LEAVES CHURCH AT MILLPORT

Millport, Nov. 21.—At a congregational meeting held at the Salem church on Sunday, Nov. 13, the congregation concurred in the wish of their pastor, Rev. E. J. Travers, to dissolve the pastoral relation existing between him and said congregation and to the First Presbyterian church at Lebanon, Pa.

Monday afternoon, Nov. 14, at a called meeting of the Steubenville Presbyterian held in the First Presbyterian church of East Liverpool, Rev. Travers was released from his duties of the Lebanon congregation and was dismissed to the Presbyterian of Baltimore. W. S. Binney represented the session and L. H. Copeland the church.

Monday evening the members of the congregation gathered at the manse and despite the bad weather over 100 sat down to a chicken supper prepared by the women. In behalf of the men of the congregation, L. H. Copeland presented the pastor, a purse of money. Mrs. James Pettit presented Mrs. Travers a chest of silver, the gift of the women of the church.

Wednesday afternoon Mrs. Walter Brown entertained Mrs. Travers at a surprise party. The guests were the members of her class. Mrs. Alfred Hull presented Mrs. Travers a silver sandwich tray, the gift of her class.

Thursday the monthly missionary meeting was held at the home of Mrs. J. M. Brown. At the devotion at service a part of the time was set aside for a season of prayers for the pastor and his wife. Mrs. Travers has been president of the society for several years.

Mr. Travers preached his farewell sermon Sunday. The family leave for Pittsburg for a visit with relatives and friends there and after Dec. 1 will take up their work in oncoming.

James McGee of Bakerstown, Pa. returned home after visiting at the home of Lester Wildman for a few days.

Walter H. Harton is taking charge of the station in Summitville while Mr. Gilfill takes his vacation.

St. John's church held a chicken supper and dance in the hall in Millport Wednesday evening.

FIERY, ITCHING SKIN IS QUICKLY SOOTHED WITH THIS SULPHUR

Mentho Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Not only soothes fiery skin eruptions, so quickly, says a noted skin specialist. The mentho sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that arement.

A small jar of Mentho Sulphur may be had at any good drug store.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

SALTS IF BACKACHE AND KIDNEYS HURT

Eating Meat for a While If Your Bladder is Troubling You

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and sluggish. When your kidneys get sluggish and clog you must relieve them like you relieve your bowels; removing all the body's urinous waste else you have backache, sick headache, dizzy spells, your stomach aches, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

ODD FELLOWS CONDUCT J. R. STRATTON FUNERAL

Rev. H. H. Scott, this city, officiated at the funeral service for John R. Stratton, 79 Leetonia, widely known resident of that vicinity. Saturday afternoon at his home, Salem Odd Fellows joined the Odd Fellows lodge of Leetonia in conducting the funeral service. Burial was in the Franklin Square cemetery.

Mr. Stratton, who died of pneumonia at 11:45 p. m. Wednesday, following an eight-days illness, was born May 15, 1842 in Columbiana county and had spent practically all his life in the vicinity of Franklin Square and at Leetonia. He was a son of David and Susan Stratton, pioneers of this county.

In 1862 he enlisted in the Civil war and served in Company G, 104th O. V. I. until 1865, and was a faithful member of the G. A. R.

He was an honored member of the Independent Order of Odd Fellows for 44 years, and served as recording secretary for 19 consecutive years. He was a charter member of D. Wallace Rebekah lodge No. 279.

For the last two years he had been a justice of the peace, having his office with Attorney W. E. Warren, Leetonia. His widow survives with four children—Mrs. E. F. Marshall, Weeping Water, Neb.; Mrs. J. O. Smith, Youngstown; William D. Stratton, Salem, and Alva M. Stratton, Akron; also 12 grandchildren and 11 great grandchildren and one sister, Mrs. Mary J. Holloway, Columbiana.

In Another Sense. She—Before we were married you said you couldn't do enough for me. He—Well, I guess time has proved that I was right.

Eagles Held To Tie Score By Goat Hills

Alliance Threatens Salem
Goal Several Times
In First Half.

Salem Eagles journeyed to Alliance Sunday afternoon and succeeded in holding the Alliance Goat Hills to a 7-7 score in the poorest exhibition of football played by the locals this season.

On a weighed 20 pounds to a man and playing on a muddy field which hindered their forward passing game to some extent, the Goat Hills outplayed Salem in all departments of the game for three periods and it was only the lucky breaks of the game that placed Salem in a position to tie the score.

When Salem started the game one quarterback was at halfback. A tackle was playing fullback. This combination failed to work and not once during the first two periods was Salem able to make a first down.

After the second half started Seeds went to halfback but it was not until near the end of the game that Hogue went in at fullback and Hannay went to tackle.

A reversal of form was noticed and Salem's attack was strengthened. Seeds made the first down of the game on a 20 yard around end.

Alliance almost swept Salem off their feet in the first period by end runs and forward passes. The ball was speedily advanced up the field to within striking distance of the

goal where a field goal failed. Salem punted out of danger but Alliance continued her attack and at no time in the first quarter was Salem's goal out of danger. On one occasion when the Goat Hills were on Salem's 10 yard line they fumbled and Salem recovered. On another occasion a pass was barely intercepted by End Gansline.

The Goat Hills continued their attack in the second period and it was only through several penalties imposed against them and unlucky breaks that they did not score. Salem played listless ball. The back field seemed slow and charged with out force.

At the start of the second half Salem received the kickoff and on the second down fumbled and the Goat Hills recovered. A pass from Segall to Righthead Gansline took the ball over for the first touchdown of the game.

Salem received Seeds making 20 yards on an end run. It was the first down that Salem made. Bolen punted after three unsuccessful attempts had been made to advance the ball. The quarter ended with the Goat Hills in possession of the ball on the 25 yard line.

On the first down of the fourth quarter the Goat Hills carried the ball to the 10 yard line on a completed pass. On the next pass the ball went for a touchdown and was given to Salem on the 20 yard line. Hogue punted. Alliance advanced the ball to Salem's 30 yard line by

end runs by Segall and Austin where a pass was intercepted by Trotter who ran the ball 50 yards to Alliance's 20 yard line. On the next play Hogue made two yards. A pass from Hogue to Seeds over to goal line gave Salem a touch-down and Hannay kicked the goal, tying the score.

The remainder of the game Salem outplayed Alliance but that was for only about five minutes. With one minute to play, Sechler blocked a punt which Hannay recovered and took to Alliance's 20 yard line before he was downed. A pass from Hogue to Wetzel placed the ball on the six yard line when the game ended.

The Ford One-Ton Truck first made its appeal to the farmer and the merchant because of the merits of Ford Cars. And it made its wonderful reputation and great sales record because it lived up to every claim made for it.

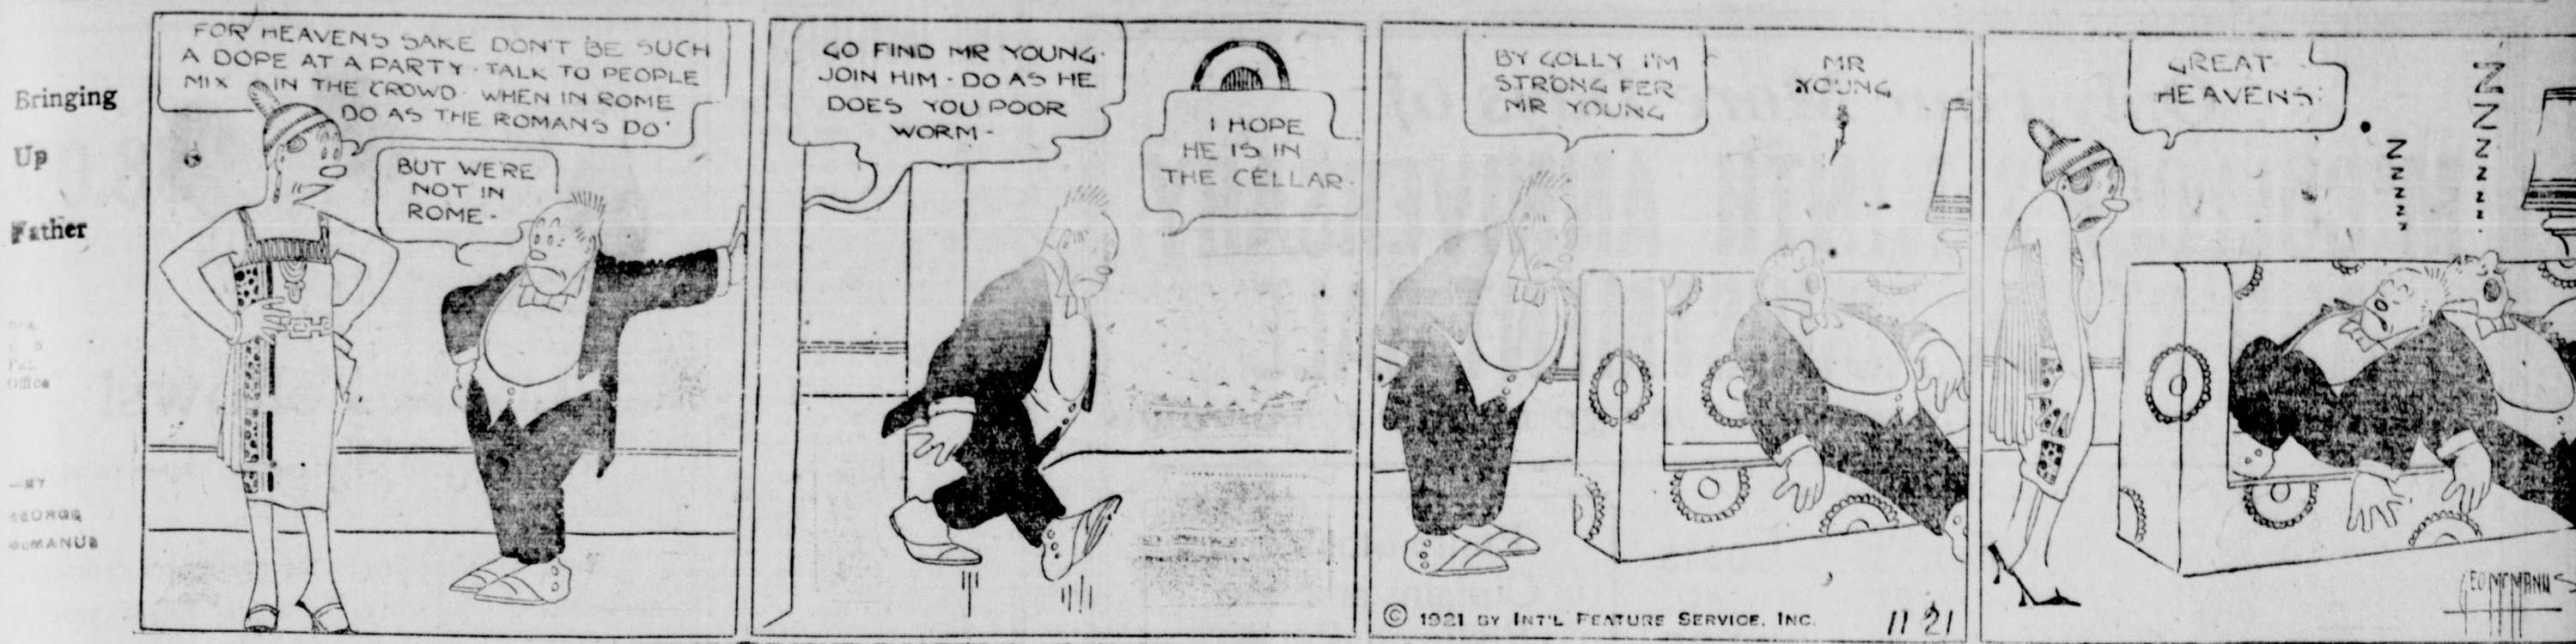

The reliable Ford Motor, the special Ford steel chassis, the aluminum bronze worm-drive, all combine to produce a truck of unusual power, capacity and strength—a truck that lasts in service; a truck that solves the haulage problem at a very small operating and upkeep expense. Hence the demand for the Ford One-Ton Truck is constantly on the increase.

For the good of your business, whether it be farming, merchandising or manufacturing, you should come in and look over the Ford One-Ton Truck—NOW!

SEBRING AND CANFIELD POSTMASTERS WILL BE SELECTED NEXT MONTH

Washington, Nov. 21.—The post-office department is now co-operating with the United States civil service commission in preparing to select postmasters at Youngstown and Warren.

The terms of the present Democratic postmasters there expire Jan. 31, 1922.

As these are both first class offices examinations will not be given to applicants in a group but questionnaires will be sent to each applicant.

On his answers to his questionnaire each will be graded, the rating, however, counting only 20 per cent of the total.

Greatest weight will be given to the business experience, training, ability as an executive and personal qualities as determined by inspectors who will visit both Youngstown and Warren.

Sebring and Canfield Posts

The civil service commission has announced that examinations will be conducted Dec. 13 at Sebring, Mahoning county, and Jefferson, Ashtabula county, the terms of the postmasters in those cities expiring also on Jan. 31, 1922.

The Sebring postoffice pays a salary of \$2,700 a year and the Jefferson postoffice a salary of \$2,000.

Applicants will be graded almost entirely on their written answers to examination questions.

On Dec. 10 examinations will be held to fill vacancies which will soon occur at Andover, Ashtabula county; Canfield, Mahoning county; and Kinsman, Trumbull county.

The Andover postmastership pays \$3,000; the Canfield postmastership, \$1,800; and the Kinsman postmastership \$1,700.

Finally Relieved by taking
Lydia E. Pinkham's Vegetable Compound

Ravenswood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my housework."

I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound so I decided to try it, and before the first bottle was gone I found great relief so I continued using it until I had taken eight bottles. Now I am very well and can do my own housework. I can gladly recommend Lydia E. Pinkham's Vegetable Compound to suffering women."—Mrs. BERTHA LEBING, R. F. D., Ravenswood, W. Va.

The ordinary day of most housewives is a ceaseless treadmill of washing, cooking, cleaning, mending, sweeping, dusting and caring for little ones. How much harder the tasks when some derangement of the system causes headaches, backaches, bearing-down pains and nervousness. Every such woman should profit by Mrs. LEBING's experience. Remember this, for over forty years Lydia E. Pinkham's Vegetable Compound has been restoring health.

ferent states. She speaks on topics of deepest interest to the farm woman of Ohio.

D. W. Galehouse of Marshallville, Ohio, who will speak at the East Rochester institute, has 10 topics touching farm life. Mr. Galehouse was with the United States Department of Agriculture for several years, was former county agent in Mahoning county and also state leader for the Boys' and Girls' club work in North Dakota. Then he went back to his first love—the farm.

Dairy Leader Coming

C. W. Heim of East Rochester is president of the East Rochester Farm Bureau division and Frank L. Hines of Bayard, is secretary.

At the New Waterford institute, which is scheduled for Jan. 20 and 21, Miss Dorsey and Mr. Galehouse will speak, as will Elmer Partridge.

Mr. Partridge is attracting wide attention because of the good work he is doing in the dairy business. His hobby is to work out some problem. He is secretary of the Trumbull County Cow-testing association and has the reputation of knowing as much about the cost of milk production as any man in Ohio. He owns a large herd himself, which has produced some remarkable records. He is strong for telling the public about the food value of dairy products.

His subjects include: "Is the Purebred Dairy Cow Practical?" "The Cow Testing Association;" "Raising and Developing the Dairy Cow;" "Feeding Dairy Cows for Profit;" "Selling Dairy Cattle."

Earl E. Bower is president of the New Waterford Division of the Farm Bureau institute and Miss Carrie Houliette is secretary and correspondent.

"Let Us Give Thanks"

SAYS PADLOX

As we eat this year's Thanksgiving feast let us pause to utter a word of thanks for that intrepid little band of Pilgrim Fathers who exactly three hundred years ago celebrated our first Thanksgiving day.

Let us also give thanks for the progress of science and industry which has made it unnecessary for us to contend with the hardships of that early day.

In the very work of preparing the Thanksgiving feast, for instance, what a change has come. The matrons of three centuries ago had to struggle with open fireplaces and the crudest of cooking utensils. How amazed they have looked three hundred years ahead and seen their daughters preparing such a feast with the aid of modern ranges, aluminum roasters, coffee percolators, food choppers, glass baking dishes and those other utensils which make it a pleasure to prepare and serve a big meal.

We have the necessary articles to help you prepare that Thanksgiving dinner. Prices reasonable.
